Immigration Conditions & Work Regulations

1. Maintaining Legal Status

International students must follow immigration requirements. Your study permit may include conditions such as:

- Where you can study
- Whether you can work
- How long you can stay

Always read your permit conditions carefully.

1.1 Key responsibilities

- Keep your passport and permits valid
- Study as required by your permit and program
- Update your contact information when needed
- Apply for extensions before expiry dates (when applicable)

If you are unsure, seek guidance from trusted, official sources.

2. Work Authorization (General Guidance)

Some international students may be allowed to work under specific conditions.

2.1 Work rules depend on your permit

Your ability to work (and the number of hours) depends on the conditions on your study permit and current regulations.

2.2 Important caution

- Do not assume you can work.
- Do not start working until you confirm you are authorized.
- Unauthorized work can have serious consequences.

2.3 Best practice

Keep records of:

- Your study schedule and enrollment status
- Your permit conditions
- Employment details (if permitted)
